Dear Prospective Clients,

It is my pleasure to recommend **Focused Staffing Group** as a trusted partner for educational staffing needs. We recently partnered with Focused Staffing to fill two critical positions at our middle school—a math teacher and a PE/health teacher—and the experience was both smooth and successful.

From the beginning, communication was timely and professional. Emails and phone calls were answered promptly, and the team maintained open and clear lines of communication throughout the process. Their responsiveness helped us move quickly through each phase of hiring, ensuring that our students had qualified teachers in place without delay.

The candidates provided by Focused Staffing were well-qualified and matched the needs of our school community. Both teachers have made strong starts in their roles and are contributing positively to our academic and wellness programs.

I would highly recommend Focused Staffing Group to any school or organization seeking reliable, professional, and efficient staffing services. Their expertise and dedication to client service made a real difference for us.

Sincerely,

Dr. Heather Brooks
Principal
Serviam Girls Academy
